

National Survey of Student Engagement Executive Snapshot 2011

Trevecca Nazarene University

Dear Colleague:

This document presents some key findings from your institution's participation in the 2011 National Survey of Student Engagement. We hope you can use this information to stimulate discussion on your campus about the undergraduate experience at Trevecca Nazarene University.

Sincerely,
Alexander C. McCormick
Director, National Survey of Student Engagement

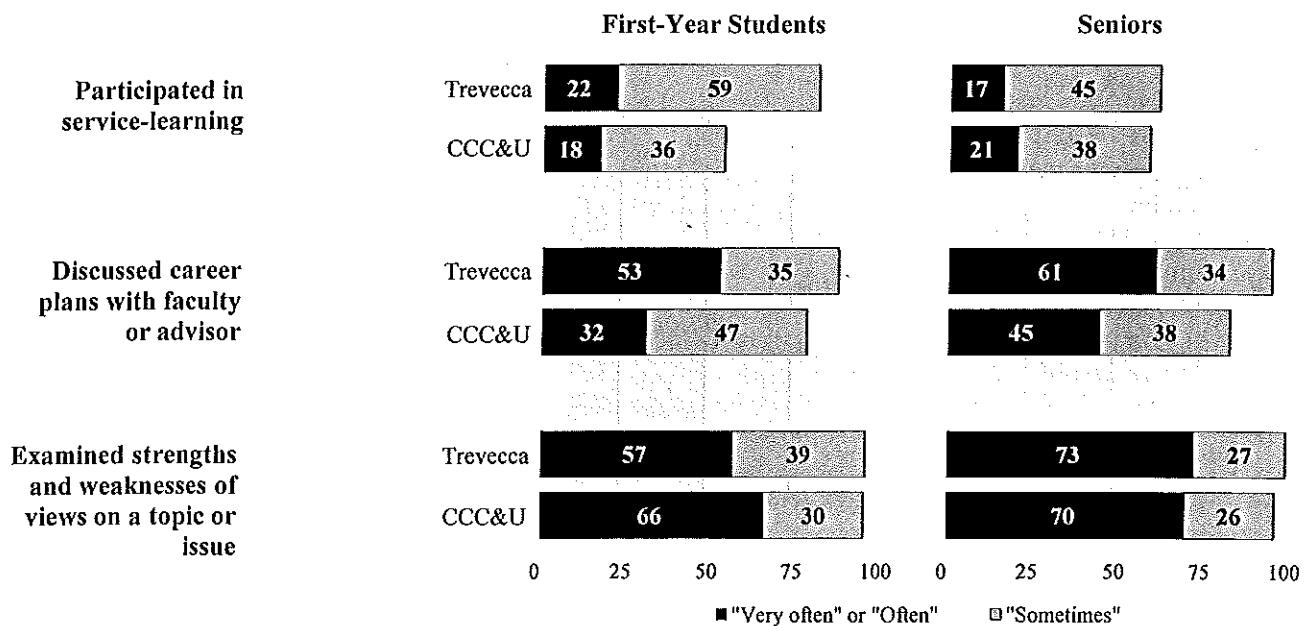

Fostering Student Engagement Campuswide

NSSE is more than a survey. It's an improvement enterprise, an agenda for action to improve undergraduate education that depends on collaboration among many players on your campus. The featured theme of NSSE's *Annual Results 2011* – "Supporting Student Engagement Across Campus" – emphasizes the value of connecting NSSE results to specific campus programs and units, and suggests sharing pertinent results to promote campus partnerships dedicated to the quality of the undergraduate experience.

Having received your NSSE reports and data, the next step is to dig into the results to develop a contextualized understanding of student engagement at your institution. Many constituents—leadership, faculty, student affairs staff, institutional researchers, and students—can contribute to this process. What should follow is the design and implementation of improvement-focused action plans.

Student engagement data can inform the work of many departments and offices on campus, such as academic affairs, career services, and student activities. For example, the figure below illustrates comparative results for survey items that might be examined by these units at your institution. Results like these may suggest areas to investigate or may validate the impact of ongoing improvement efforts.

Percentage of Students Participating in Selected Activities at Trevecca and Selected Comparison Institutions*

*Response options were "Very often," "Often," "Sometimes," and "Never." "Never" responses are not displayed. Comparison institutions are the first comparison group from your *NSSE 2011 Selected Comparison Groups* report unless your institution requested a different group for this *Snapshot*.

NSSE 2011 Question Comparisons

By examining individual NSSE questions, you can better understand what contributes to your institution's overall benchmark scores. This section features the five questions on which your first-year and senior students scored the highest and the five questions on which they scored the lowest, relative to students at the indicated comparison group (the group's members are listed in your *NSSE 2011 Selected Comparison Groups* report).

While we chose these questions to represent the largest differences (in percentage points), they may not be the most important to your institutional mission or current program or policy goals. We encourage you to review your *NSSE Institutional Report 2011* for additional results of particular interest to your campus.

The adjacent figure, based on the table above, displays the questions on which your students compared least favorably with those in your selected comparison group named:

CCC&U

Notes

¹ LAC=Level of Academic Challenge; ACL=Active and Collaborative Learning; SFI=Student-Faculty Interaction; EEE=Enriching Educational Experiences; SCE=Supportive Campus Environment

² Combination of students responding "Very often" or "Often"

³ Rated at least 5 on a 7-point scale

⁴ Combination of students responding "Very much" or "Quite a bit"

Respondent Characteristics

The adjacent table displays your number of respondents, response rate, and sampling error by class. Sampling error is an estimate of the margin by which the true percentage of your students may differ from the reported percentage on a given item (because not all of your students completed surveys).

	N	Resp. Rate	Sampling Error
First-Year Students	69	30%	+/-9.9%
Seniors	81	41%	+/-8.4%

Benchmarks of Effective Educational Practice

To represent the multi-dimensional nature of student engagement, NSSE developed five indicators of effective educational practice. These "benchmarks" are created from clusters of NSSE questions that best represent these practices.

The table below summarizes key benchmark results for your institution and institutions in your selected comparison groups. A '+' symbol indicates that your institution's score is higher than than the comparison group and a '-' symbol indicates a lower score (p < .05). A blank space indicates no significant difference. For additional details, review your *NSSE 2011 Benchmark Comparisons* report.
